WHO WE ARE ?

Solidarités Jeunesses (SJ) is an association from a movement of **non-formal education** which places in its core values **solidarity, voluntary involvement** and a strong political will. Our choices and our actions are influenced by our vision of the society, in which **the progress is social**, where **the respect of human being** and **the environment** is a fundamental and shared value, where freedom to choose, to dream and to resist is innate or fostered.

Our activities are organised for all, do not matter about gender, social and cultural background, nationalities. Solidarités Jeunesses, since its creation, participates concretely to **Peace construction, fostering intercultural meeting here in France and abroad**. Solidarités Jeunesses works through participative pedagogy which encourages initiatives, valorize commitment and gathers forces and intelligences from all, volunteers, employees.

Solidarités Jeunesses is composed by one **National Secretary based in Paris, eight Regional Delegations**, and one partner association. Our delegations host time to time or all year long volunteers, from France and from all around the world. Furthermore, these delegations and partners support and host also youngsters with fewer opportunities, as part of inclusion and solidarity actions. All these friendly delegations and partners are located in singular and original sites (castle, former camp-site, isolated villages in the heart of mountains, former factory, etc.). These places have been all renovated thanks to the volunteers and the people involved on these projects. People live, meet and enjoy together there.

Do you know it? The first workcamps were organized after the First World War, in Verdun region, in France. Several citizens-volunteers, from former opposed countries, decided to join their forces and wills in order to work together on Peace construction in the interest of the communities.

MAISON DES BATELEURS

This Regional Delegation has been created in 1993 through the organisation of international workcamps. In 1996, **the association has been invited by the local authority of Montendre to settle in the village in order to foster its actions and its impacts on the territory.** “La Maison des Bateleurs” was born like that, after two years of renovation and work thanks to the volunteers and the local community. Since then this place is dedicated to diversity, wishing to host lot of people from different backgrounds through several kinds of action (events, international workcamps, inclusion workcamps, etc.). Today, this site is able to host 30 people.

Around 8 volunteers are there all year long and the others are volunteers who stay from 2 to 6 months, interns, employees and participants to inclusion camp according to the season.

The day start by a **cleaning collective time**, then people go working on the project they came for. After that some will **cook**, some others will enjoy gardening or other **workshops**.

What you will find there !

- A bamboo field
- A baker's oven
- A kitchen garden
- Dry toilets
- A music room
- A second-hand shop !

VOLUNTEERING & PROJECT

Volunteering is an exchange, a meeting, between one person who wishes to offer his/her time, energy, views to a general interest project. It is also **an intercultural ground of learning, experiments and personal construction**. At SJ, volunteering does not mean humanitarian action because we do not deal with emergency. Voluntary service exists almost everywhere around the world and it is **a commitment** which can be really different regarding countries, cultures, fields, etc. It gathers different types of persons and entities, local associations, men, women, local authorities and private entities. **Volunteering is mostly a personal commitment, which invites you to a deep discovery.**

The International Center La Maison des Bateleurs is located in Montendre, a village of 3000 inhabitants. The main goals of the project are to meet and get to know one another, to create a constructive group dynamic, as well as to break stereotypes and prejudices by working together and living collectively and to give new energy to rural areas. We believe in the idea of “non formal education” which holds that everyone can teach and learn each other.

La Maison des Bateleurs animated by the daily presence of volunteers, aims to be a place which foster openness, cultural and social diversity and the respect of environment. **You will actively participate in the life of the house** and in the different **activities: collective life** (cooking, cleaning...), **cultural exchanges** (meeting with the local people, hosting groups...), **manual workshops** (site maintenance, rehabilitation of green spaces, gardening, carpentry...) **ecological practices** (respectful and handmade cleaning products..). From the vegetable garden to the energizers games, through pizza nights, the association is still concerned about **the individual's personal development and voluntary participation of all**. The association regularly hosts groups of children, adolescents and young adults on short breaks to allow them to discover our values in order to increase the importance of doing and living together. Is one of the reason we have to make the site maintenance and pedagogical places like the garden..

You will host these persons, **support** them to work on the project (collective tasks and working time) and **propose** animation activities.

PROJECT ACTIVITIES

The objective is to take care of the place which hosts our project, everyday volunteers work for this. With the long term volunteers, they will work and experiment news things, they will help some local associations and participate in the collective life. Moreover is the way for them to define their professional career toward a job or training...

Our main activity is to gather people from all over the world through international project to help and work for a public cause. An international work-camp could be around environmental, cultural or social cause, or around building renovation. These camps normally consist of 12 international and local volunteers.
